Summary

As a Frontend developer having an extensive skill set in HTML, CSS, and JavaScript and excel at creating dynamic and interactive user interfaces that enhance the overall user experience, also familiar with modern frontend frameworks, particularly REACT, which empowers to build scalable and efficient applications by leveraging its component-based architecture. Let's collaborate to turn your ideas into immersive digital experiences.

Work Experience

Accenture   Oct 2023 – Feb 2024

Associate Software Engineer Intern   *Gurugram, Haryana*

- Completed comprehensive training program covering Frontend Technologies and Development related fields.
- Participated in examinations assessing proficiency in frontend skills and programming languages.
- Demonstrated understanding of software engineering principles and best practices through successful completion of training modules and examinations.
- Gained proficiency in React by working extensively on building modern web applications using React's component-based architecture, state management with hooks, context API, and Redux, along with routing navigation using React Router.

Projects

ChatAI AI Model | [Link](#) | [Github](#)

- Developed a responsive chatbot application named "ChatAI" using React.js.
- Implemented a user-friendly interface allowing users to interact with the chatbot seamlessly across various devices and screen sizes.
- Integrated third-party APIs to enable natural language processing (NLP) capabilities and fetch user prompts.
- Leveraged Context API for state management, providing a centralized store for managing user sessions, chat history, and conversation context.

Cartify E-commerce Website | [Link](#) | [Github](#)

- Developed a fully functional e-commerce website named "Cartify"using Html, Css and Javascript.
- Implemented dynamic cart functionality allowing users to add and remove items from their shopping cart.
- Implemented real-time updates to the cart interface, reflecting changes in quantities and prices without the need for page refresh.
- Integrated browser local storage to persistently store cart data, ensuring that user's shopping carts remain intact even after refreshing the page or closing the browser.

Currency Converter | [Link](#) | [Github](#)

- Developed a currency converter web application using Html, Css and Javascript.
- Implemented a user-friendly interface allowing users to input an amount in one currency and convert it to another currency.
- Integrated a third-party API to fetch real-time exchange rates between different currencies.
- Implemented asynchronous JavaScript functions to fetch exchange rate data from the API and update the conversion results dynamically.

Technical Skills

Languages: HTML, CSS, JavaScript, Java
Frameworks: React.js, Tailwind Css, BootStrap
Developer Tools: VS Code, Git

Education

Lakshmi Narain College Of Technology Excellence   June 2019 – June 2023

Bachelor of Technology   *Bhopal, MP*
